## Give Us Your Input!

Public input from thousands of Californians has already helped shape the CALFED Bay-Delta solution. However, there are many significant issues that still need to be decided. Please fill out this form and tell us what you think is important when developing an equitable, feasible and durable Bay-Delta solution.

## Comments:

Rural and Semi-rural communities of the North State need to maintain ag. lands while addressing ecological concerns. Water conservation measures must be a key strategy for all concerned stakeholders: agriculture, towns & cities, industry, & all citizens. Creative approaches must be encouraged to reducing water use at all levels BEFORE discussing new supplies.

Use additional sheets if necessary.
